S T U D Y   A B R O A D

**Center for International Programs and Sustainability Studies**

**Course name: Sustainable Lifestyles: 9 Dimensions of Healthy Living**

**Course code: SUSD-3000**

**Total contact hours: 48**

**Pre-requisites: n/a**

## **COURSE DESCRIPTION**

The 21st century has brought with it a steep increase in health concerns, from stress, drug addiction and heart-related conditions to loneliness and depression. Young adulthood entails critical life transitions and therefore people in this period of life often experience health concerns more than any other. How do young adults sustain well-being and create healthy lifestyles they can enjoy throughout their lives? This course combines research on meta-analyses of the elements that lead young adults to well-being and success, as well as includes "me-search" where course participants can learn how they themselves fine-tune their own healthy lifestyle. The course explores 9 dimensions of healthy living: physical health, psychological and emotional wellbeing, educational attainment, ethical behavior, relationships, constructive engagement, executive functioning and life skills, civic engagement, and spirituality.

## **COURSE PRE-REQUISITES**

No pre-requisites.

## **AUDIENCE**

This course is structured for International Students attending the Study Abroad program at Universidad Veritas. However, courses are not exclusive to foreigners so a few native

students could enroll in this course. Some of the courses are also taught in Spanish as part of our Bachelors in Sustainability Management.

This is a theoretical-practical course, and it seeks to clarify the following question:

**How do young adults sustain well-being and create healthy lifestyles they can enjoy throughout their lives?**

In order to respond this question, we will study the following generative topics:

- Physical health
- Psychological and emotional wellbeing
- Educational attainment
- Ethical behavior
- Relationships
- Constructive engagement
- Executive functioning and life skills
- Civic engagement, and spirituality

Along the course, the following **skills** will be fostered:

- Students will learn to assess sustainable lifestyles from an integral perspective, which encompasses and integrates many domains and practices
- Students will also be encouraged to use honest self-reflection to understand how to implement practices that lead them to healthier lifestyles

Among the **values** and **attitudes** that will be promoted among students are the following:

- Teamwork and leadership
- Systemic thinking
- Logical and communicative intelligence

- Problem solving
- Learning how to learn
- Self-awareness
- Empathy

**COMPETENCIES, CRITERIA AND EVIDENCE**

The competencies for the Veritas University are reflexive and integral actions that respond to the professional profile and to the problems of the context, with suitability and ethical commitment, integrating the know-how, and the knowledge to know in a perspective of improvement.

Below are both the disciplinary and general competencies, linked to their criteria and evidence of performance for this course.

Competencies	Key competences	Evidence of learning
Self-Awareness	○ Understands personal strengths and challenges	○ Development of the Healthy Lifestyle Plan ○ Presentation of selected dimension of healthy living ○ Class Participation
	○ Ability to accept and share personal characteristics	
	○ Learn to identify when and when not living in a zone of optimal health	
	○ Implement strategies to maintain and return to optimal health	

<b>General/Core</b>		
Integrates knowledge, skills and attitudes to learn continuously and through one's life pursuing an efficient development in the knowledge-based society.	<ul style="list-style-type: none"> <li>○ Learning to learn.</li> </ul>	<ul style="list-style-type: none"> <li>○ Development of the Healthy Lifestyle Plan</li> <li>○ Presentation of selected dimension of healthy living</li> <li>○ Class Participation</li> </ul>
Integrates the necessary knowledge, skills and attitudes to learn interpersonal communication techniques.	<ul style="list-style-type: none"> <li>○ Relates well to others</li> <li>○ Manage and solve conflicts.</li> <li>○ Negotiates reliably and empathetically</li> <li>○ Speaks responsibly</li> <li>○ Listens attentively.</li> </ul>	<ul style="list-style-type: none"> <li>○ Development of the Healthy Lifestyle Plan</li> <li>○ Presentation of selected dimension of healthy living</li> <li>○ Class Participation</li> </ul>
Builds the necessary knowledge, skills and attitudes to learn how to communicate orally and in written form in the different disciplines that make up the curriculum.	<ul style="list-style-type: none"> <li>○ Communicates thoughts of the discipline orally, graphically, and in written form.</li> </ul>	<ul style="list-style-type: none"> <li>○ Development of the Healthy Lifestyle Plan</li> <li>○ Presentation of selected dimension of healthy living</li> <li>○ Class Participation</li> </ul>

## **COURSE CONTENT**

### **Unit 1. Introduction to 9 Dimensions of Young Adult Success**

### **Unit 2. Introduction to Healthy Lifestyle Plan**

### **Unit 3. Physical Health**

- Nutrition
- Exercise
- Substance Abuse
- Sleep
- Safe sex

### **Unit 4. Psychological & Emotional Wellbeing**

- Emotional Intelligence
- Coping Mechanisms
- Resilience
- Identity Development
- Mindsets

### **Unit 5. Healthy Social and Family Relationships**

- Intimate relationships
- Conflict Resolution
- Tribalism
- Parents
- Communication skills

### **Unit 5. Ethical Behavior**

- Impulse control
- Values

- Crime
- Cultural Relativism
- Empathy

#### **Unit 6. Educational Attainment**

- Multiple intelligences
- Creativity
- Experiential Learning
- Learning differences
- Study skills

#### **Unit 7. Constructive Engagement**

- Professional skills
- Use of screens
- Resume
- Productive Leisure
- Agency

#### **Unit 8. Civic Engagement**

- Service Learning
- Leadership
- Politics
- Environmental actions
- Integrative Thinking

#### **Unit 9. Life skills**

- Finances
- Healthy Habits

- Decision-Making
- Organization and Planning
- Motivation

### **Unit 10. Spirituality**

- Mindfulness
- Purpose & Meaning
- Connectedness
- Religion
- Flow

### **METHODOLOGY**

This course will combine discussion, presentations, and activities. It will begin by introducing all 9 dimensions and the research that gave rise to them. Students will be able to choose which dimension they want to study further and select the elements of this dimension they want to emphasize in a presentation to the class.

Furthermore, students will complete a Healthy Lifestyle Plan as a final project. This is a self-diagnostic and strategic plan for how they want to live a healthy lifestyle. Students will be encouraged to complete each dimension on the week after learning on the unit that corresponds to that dimension.

### **EDUCATIONAL RESOURCES**

In order to guarantee good development of the course, therefore, to guarantee learning, the following resources are available: an updated bibliographic database, multimedia equipment that students can use for their individual presentations; whiteboards and other school equipment for weekly sessions, and readings provided by the educator. Most of the lessons will take place in the classroom. During independent work periods, students will be able to attend the institution.

A campus library, study rooms, and computer labs are available for the students' independent work time. Free Wi-Fi connection for students, educators, and staff is provided on campus, which gives students the possibility to work not only in the library or computer labs, but also around campus.

## **LEARNING EVALUATION**

Evaluation compiles and evaluates evidence by taking into account feedback providing pre-established criteria. The course evaluation must be aligned with the competencies and the teaching methodology. There is a rubric for each evaluation resource, and the details will be provided in **CANVAS LMS**. Even though the rubric grants a grade, it is also a quantitative and qualitative description of the students' performance. The rubrics include the core and discipline key competences.

<b>ASSIGNMENTS</b>	<b>PERCENTAGE VALUE</b>
Presentation	30 %
Class Engagement	20 %
Healthy Lifestyle Plan weekly dimension homework (x9)	30 %
Completed Healthy Lifestyle Plan	20 %
<b>Total</b>	100%

## **LEARNING STRATEGIES AND RUBRICS**

The following learning strategies will be developed:

### **1. Presentation:**

Each student will present on a specific dimension of healthy living, or more if desired or shared with another student. These presentations will give students the opportunity to delve deeper into a dimension of their interest. Furthermore, students practice oral communication skills, sequential organization of topics and research.

## **2. Class Engagement:**

Involvement in class topics, asking questions, providing unique perspectives, supporting others' learning. Student participation and investment is what ultimately makes a class a good class. Being attentive and engaged in class is an essential component to accomplishing the skills and competencies designed for this class.

## **3. Healthy Lifestyle Plan:**

The Healthy Lifestyle Plan (HLP) provides a framework to apply the content learned in class to each student's own life. It encourages honest introspection as well as application of the content learned in class. Students practice critical thinking and analysis when devising strategies to implement when they veer off a path of healthy living. The following rubric will apply for each of the weekly assignments, as well as the final HLP.

## **ATTENDANCE**

### **Regarding classes:**

1. Students are only allowed a total of two (2) nonconsecutive (back-to-back) class absences. A student shall fail the course if more than two absences are registered.
2. Three late arrivals to class (within the first 15 minutes) are treated as one absence. Attending class 30 minutes late without an official justification will also count as an absence.
3. In the case of an absence from any assignment evaluated in class (presentations, evaluations, field trips, etc.) a student will be given a grade zero unless an official document is presented within one week of the absence.
4. If a student presents an official document to excuse the absence, the missed assignment is to be presented on that same day.

### **Regarding field trips:**

5. An unjustified absence on a field trip will immediately result in the loss of all points assigned to that specific trip. However, if an official document justifying the absence is presented, 50% of the assignment points may be obtained on presentation of a complementary research assignment, to be agreed upon with the professor, within one week of the field trip.
  
6. An absence on a field trip may be justified should two course field trips coincide. In such a case, and in order to avoid losing points, students shall be able to opt for carrying out a research assignment.

### **CODE OF CONDUCT**

1. Professors have the right to expel a student from the classroom should he / she/ they:
2. Be disruptive in the classroom.
3. Behave in a disrespectful way.
4. Be under the influence of alcohol or even smells like alcohol.
5. Be under the influence of any illegal drug.
6. Shows hygiene problems that may disturb other students.

### **ELECTRONIC DEVICES**

The use of cell phones, smart phones, or other mobile communication devices is disruptive, and is therefore prohibited during class. **Please turn all devices OFF** and put them away when class begins. Devices may be used **ONLY** when the professor assigns a specific activity and allows the use of devices for internet search or recording.

Those who fail to comply with the rule must leave the classroom for the remainder of the class period. If situation happens again, 10 points will be deducted from the final participation grade.

## **PROGRAM POLICIES**

The student must comply with the provisions of the CIPSS Program Policies available on the Canvas platform.
