**Engagement (20%):** Students are expected to be engaged in class, to have read the [CEA CAPA Engagement Policy](#), and to understand the [Class Engagement Rubric](#) that outlines how engagement is graded. One component of engagement will be for students to build a \*Knowledge Bank" which will include various resources (academic textbooks, journals, websites, blogs, reports, videos etc) that they have researched and that are relevant to this course.

Students will create a digital file that can be prepopulated weekly, and the link to the repository/knowledge bank should be shared with the entire class. Engagement includes preparation for the weekly classes and the quality (rather than quantity) of participation.

Case studies will be assigned for class discussion each week, and students are required to work closely with their final research project partners in preparing for these class discussions. Students will be graded for this assessment component based on their level of preparedness and quality of class interventions.

**Social Media Audit Group Project (30%):** Each student group will select a brand from Westfield that utilizes social media as part of its marketing strategy and will analyse the brand's social media presence across a single platform (e.g. Facebook, Instagram, Twitter). relation to its competitors in the UK marketplace), strengths and weaknesses of the current approach, and recommendations for improvement.

Each group will present their analysis via a 20-minute group presentation to the class.
