## Assessment

### Assessment procedures and criteria 2024-25

- The final mark will be the sum of the practical exercises and the final exam. 50% of the final mark will come from continuous evaluation and the other 50% will be the exam.
- In order to pass the subject, 2 points out of 5 should be reached in the theoretical final exam.
- If the student had not attended one of the five seminars for continuous assessment, students should retrieve the activities as proposed by the teacher. However, the practice of fieldwork will not be recovered.
- Those students unable to attend the activities proposed by the teacher in this subject (always for justified reasons) should contact the teacher to agree a specific learning program.
