■ [DEGREE IN PRIMARY SPECIALITY](#)

Course type: COMPULSORY (Year: 4)

#### Competencies and objectives

#### Course context for academic year 2024-25

Teaching Visual Expression subject is part of the Degree in Primary Speciality curriculum, developed at the university sphere. The educational activity of this subject consists of a combination of theory and praxis focused on perception and visual representation.

Both in practice and in theory, the students should acquire basic knowledge of visual and plastic language, general characteristics and fundamental aspects of its syntax and semantics, and deep analysis of children's plastic language, knowledge properly adapted to their future activity as Primary school teachers.

The aim of the course is to develop the students' expressive and creative abilities through the study of visual and plastic language. It's also aimed to develop educational and methodological aspects and guidelines for primary school children work analysis. Future teachers must be sensitive and aware of the importance of culture, as well as their teaching contributions and educational outreach.

# Assessment

## Assessment procedures and criteria 2024-25

The subject will be assessed in two different ways according to the student's commitment to work during school and non-school hours.

### ORDINARY ASSESSMENT

All students who regularly attend classes will be able to opt for this modality, so they will not be able to miss more than 20% of the sessions. They must work continuously on those parts of the content proposed as individual and/or group work.

This assessment will consist of a follow-up by the teachers of the theoretical-practical contents with the realization of different exercises by the students, considering that the expression and linguistic correctness is 10% of the final grade. To this is added a test that accounts for 40% of the final grade. Specifically, the formative evaluation during the semester is detailed as follows:

1. Expression and linguistic correctness will be considered with a value of 10% of the final mark.
2. Theoretical-practical exercises: assessable activities will be proposed on the contents and thematic blocks of the subject. The results of these evaluations will account for 50% of the final grade.
3. Final test: It will collect questions related to the aspects worked on both the theoretical sessions and the practical sessions. This test may be multiple choice or theoretical-practical and its assessment will account for 40% of the final grade.

To pass the subject it will be necessary to achieve at least 50% of the grade. The minimum grade to make an average will be 4 out of 10 in each of the parts.

### FINAL ASSESSMENT

For all those students who have not passed the activities that constitute the formative assessment, or who have not been able to attend the sessions regularly. The instruments used for this assessment will be the following:

- Expression and linguistic correctness (10%)
- Theoretical-practical exam on the contents present in the teaching guide, 45% theoretical part and 45% practical part. The minimum grade to make an average will be 4 out of 10 in each of the parts and it will be positive when the average reaches at least 5. When a student does not achieve it during the continuous assessment in any of the blocks, they can recover it on day proposed in the subject final assessment, taking the theoretical-practical exam.

Regarding to C1, it will be governed by the same conditions as C4.

The final grade will be the result of the sum of the grades obtained in the two sections, considering the proportion assigned to each of them to calculate the final grade and pass the subject. In addition, students must consult the assessment regulations of the Faculty of Education: <https://educacio.ua.es/es/secretaria/normativa-facultad-de-educacion.html> Specifications section.
